PROVEN SWAMP-ROOT AIDS WEAK KIDNEYS.

The symptoms of kidney and bladder troubles are often very distressing and leave the system in a run-down condition. The kidneys seem to suffer most as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles.

Dr. Kilmer's Swamp-Root which soon heals and strengthens the kidneys is a splendid kidney, liver and bladder remedy, and being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who use it.

A trial will convince anyone who may be in need of it. Better get a bottle from your nearest drug store, and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Newark Daily Advocate—Advertisement.

Easy Way to Get Rid of Itching

Don't worry any more about that itching skin-trouble. Just get a jar of resolin ointment and a cake of resolin soap at any drug store.

With the resolin soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resolin ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

Choosing Your Shampoo Soap

If you select a soap that contains soothing, healing properties like the resolin balsams in resolin soap, you are not likely to have trouble with dandruff, loss of hair or itching scalp. Ideal for the hairdresser's heads.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for cod-liver oil, gently in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

Germany Names Conditions Under Which American Ships Can Sail Seas

Washington, Feb. 1.—Germany's note to the United States announcing that it will now use all the weapons at its disposal in carrying on the war as submitted yesterday to the secretary of state, is as follows:

"Washington, D. C., Jan. 31, 1917. Mr. Secretary of State: "Your excellency were good enough to transmit to the imperial government a copy of the message which the president of the United States of America addressed to the senate on the 22nd inst. The imperial government has given it the earnest consideration which the president's statements deserve. Inspired as they are by a deep sentiment of responsibility. It is highly gratifying to the imperial government to ascertain that the main tendencies of this important statement corresponds largely to the desires and principles professed by Germany. These principles especially include self-government and equality of rights for all nations.

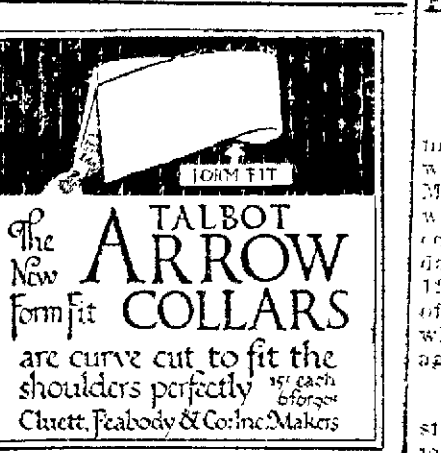

"Germany would be sincerely glad if in recognition of this principle countries like Ireland and India, which do not enjoy the benefits of political independence, should now obtain their freedom. The German people also repudiate all alliances which serve to force the countries into a competition for might and to involve them in a net of selfish intrigues. On the other hand, Germany will gladly co-operate in all efforts to prevent future wars. The freedom of the seas, being a preliminary condition of the free existence of nations and the peaceful intercourse for the commerce of all nations, has always formed part of the leading principles of Germany's political program. All the more the imperial government regrets that the attitude opposed to peace makes it impossible for the world at present to bring about the realization of these lofty ideals.

"Germany and her allies were ready to enter now into a discussion of peace and had set down as basis the guaranty of existence, honor and free development of their peoples. Their aims, as has been expressly stated in the note of Dec. 12, 1916 were not directed towards the destruction or annihilation of their enemies and were, according to their conviction, perfectly compatible with the rights of the other nations. As to Belgium, for which such warm and cordial sympathy is felt in the United States, the chancellor had declared only a few weeks previously that its annexation had never formed part of Germany's intentions. The peace to be signed with Belgium was to provide for such conditions in that country, with which Germany desires to maintain friendly neighborly relations, that Belgium should not be used again by Germany's enemies for the purpose of instigating continuous hostile intrigues. Such precautionary measures are all the more necessary, as Germany's enemies have repeatedly stated, not only in speeches delivered by their leading men, but also in the statutes of the economical conference in Paris, that it is their intention not to treat Germany as an equal, even after peace has been restored, but to continue their hostile attitude and especially to wage a systematical, economical war against her.

"The attempt of the four allied powers to bring about peace has failed owing to the lust of conquest of their enemies who desired to dictate the conditions of peace. Under the pretense of following the principle of nationality our enemies have disclosed their real aims in this way, viz., to dismember and dishonor Germany, Austria-Hungary, Turkey and Bulgaria. To the wish of reconciliation they oppose the will of destruction. They desire a fight to the bitter end.

"A new situation has thus been created which forces Germany to new decisions. Since two years and a half England is using her naval power for a criminal attempt to force Germany into submission by starvation. In brutal contempt of international law, the group of powers led by England does not only curtail the legitimate trade of their opponents, but they also by ruthless pressure compel neutral countries either to altogether forego every trade not agreeable to the entente powers, or to limit it according to their arbitrary decrees. The American government knows the steps which have been taken to cause England and her allies to return to the rules of international law and to respect the freedom of the seas.

"The English government, however, insists upon continuing its war of starvation, which does not at all affect the military power of its opponents, but compels women and children, the sick and the aged to suffer for their country, pain and privations which endanger the vitality of the nation. This British strategy mercilessly increases the sufferings of the world indifferent to the laws of humanity, indifferent to the protests of the neutrals, when they severely harm, indifferent even to the silent longing for peace among England's own allies. Each day of the terrible struggle causes new destruction, new sufferings. Every day shortening the war will on both sides, preserve the life of thousands of brave soldiers, and be a boon to mankind.

not justify before its own conscience, before the German people and before history, the neglect of any means destined to bring about the end of the war. Like the President of the United States, the imperial government had hoped to reach this goal by negotiations.

After the attempts to come to an understanding with the entente powers have been answered by the latter with the announcement of an intensified continuation of the war, the imperial government—in order to serve the welfare of mankind in a higher sense and not to wrong its own people—is now compelled to continue the fight for existing, again forced upon it, with the full employment of all the weapons which are at its disposal.

"Sincerely trusting that the people and government of the United States will understand the motives for this decision and its necessity, the imperial government hopes that the United States may view the new situation from the lofty heights of impartiality and assist, on their part, to prevent further misery and unavoidable sacrifice of human life. "Enclosing two memoranda regarding the details of the contemplated military measures at sea, I remain, etc., "J. BERNSTORFF."

DESCRIBES RESTRICTED ZONE.

Berlin, Feb. 1.—Following is the annex referred to in the German note: "From Feb. 1, 1917, within the barred zones around Great Britain, France, Italy and in the eastern Mediterranean, as outlined in the following, all sea traffic forthwith will be opposed. Such barred zones are: "In the North Sea, the district around England and France which is limited by a line 20 nautical miles; the district along the Dutch coast as far as the Terschelling Lightship, the degree of longitude of the Terschelling Lightship to 141°; a line from there across the point 62 degrees north latitude, 5 longitude eastward along 62 degrees to a point, three nautical miles south of the south point of Farover (Faroe Islands); from there across the point 62 degrees north, 15 degrees west to 61 degrees north, 15 degrees west; then 57 degrees north, 20 degrees west, to 47 degrees north, 20 degrees west; further to 43 degrees north, 15 degrees west; then on degree latitude 43 degrees north to the point 20 nautical miles from Cape Finisterre and 20 nautical miles distance along the Spanish north coast, as far as the French frontier.

"Concerning the south in the Mediterranean, for neutral shipping here remains open the sea district west of a line from Pt. de Les Pacquet to 38 degrees 20 minutes north and 6 degrees east, as well as north and west of zone 30 sea miles broad along the north African coast, beginning on (?) degrees west longitude.

"In order to connect this sea district with Greece, the zone leads 20 sea lines in width, north or east, following this line: 38 degrees north and 6 degrees east, 38 degrees north and 11 degrees 30 minutes east to 24 degrees north and 11 degrees 30 minutes east to 34 degrees north and 22 degrees 30 minutes east. From there it leads to a zone 20 sea line broad west of 22 degrees 30 minutes east longitude into Greek territorial waters.

"Neutral ships plying within the barred zones do so at their own risk. Although precautions are being taken to spare neutral ships which on February 1 are on the way to ports in the barred zone during an appropriate delay, yet it is urgently to be advised that they be warned and directed to other routes by all means available.

"Neutral ships plying in ports of the barred zones can with the same safety abandon barred zones if they sail before Feb. 5, and take the shortest route into the open district.

"Traffic of regular American passenger steamers can go on unimpeded if: "A—Falmouth is taken as the port of destination, and if: "B—On the going and return journey the Scilly Islands, as well as the point 50 degrees north, 20 degrees west, be steered on. Along this route no German mines will be laid.

"C—Steamers on this journey bear the following special signals which only they will be permitted to display in American ports: A coating of paint on the ship's hull and the superstructure in vertical stripes, three meters broad, alternating white and red on every mast a large flag of checkered white and red; on the stern the American national flag; during darkness the national flag and the coat of arms to be as easily recognizable as possible from a distance; and the ships must be completely and brightly illuminated.

"D—If only one steamer runs each week in each direction, arriving at Falmouth on Sundays, leaving Falmouth on Wednesdays.

"E—If guarantees and assurances are given by the American government that these steamers carry no contraband (according to the German list of contraband).

"Two copies of maps in which the barred zones are outlined are added."

Exports During 1916 Total Five Billions; Show a Big Increase

Washington, Feb. 1.—American manufacturers sent abroad last year more than double the value of 1915. Manufacturers ready for consumption were valued at \$2,425,686,268, the commerce department announced today compared with \$1,215,195,552 in 1915. They formed more than half of the year's increase in exports which aggregated \$3,421,269,162 against \$3,194,236,532 in 1915.

It's a good plan to watch your step. And the fatter a man gets, the more he feels his weight.

OHIO EDITORS GIVE VIEWS OF GERMAN NOTE

Our government refused to en-
force the German ambassador's
warning before the sailing of the
Lusitania by refusing to take notice
of it. It now publishes the German
note containing another warning. It
avoids an endorsement, but it may
mean that Washington will await
developments.

If that submarine warfare suc-
ceeds British rule of the seas is
broken forever. These boats are
fighting our battles, too.—Cleveland
Waechter and Anzeiger.

In deliberately abrogating her
pledges to the United States govern-
ment and announcing ruthless sub-
marine warfare against all neutral
shipping, Germany removes herself
from the family of civilized powers
and becomes a voluntary outlaw.
Reputation of international law and
disregard for the fundamentals of
humanity must alienate the sympathy
which of late has been steadily turn-
ing toward the cause of the central
powers.—Akron Evening Times.

A tremendous weight of respon-
sibility rests upon Mr. Wilson's
shoulders. The nation is unimpass-
ioned and cold; there is practically
no popular enthusiasm for war. At
the same time, on the face of the
German note, it appears that the
only way the president can continue
friendly relations with Germany is
by an abject surrender of American
rights.—Cincinnati Times Star.

URGE MRS. BYRNE TO TAKE PARDON FROM GOVERNOR

(ASSOCIATED PRESS TELEGRAM)
New York, Feb. 1.—A committee
of one hundred which has been sup-
porting Mrs. Margaret Sanger and
her sister, Mrs. Ethel Byrne, in their
fight to amend the laws concern-
ing the dissemination of birth con-
trol information announced today
that it would urge Mrs. Byrne to ac-
cept Governor Whitman's condi-
tional pardon if she was unable to
obtain her freedom by appeal to the
courts. The governor has promised
to pardon Mrs. Byrne, who has
served ten days of a thirty days'
sentence for giving out birth control
information, if she would agree to
stop her activity along this line.

The birth control crusaders said
they were satisfied with their pro-
gress so far. They hope to bring
about the repeal of the birth control
laws through study of the question
by a commission which they say the
governor has promised to appoint.

BERLIN CLAIMS HOSPITAL SHIPS CARRY ARMAMENT.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Feb. 1.—(Wireless to the
Associated Press via Sayville.)—The
memorandum of the German govern-
ment giving notification that hos-
pital ships had been barred from
their privileges in the waters south
of Great Britain, was accompanied
by 23 affidavits and statements in-
tended to establish the presence of
armament on board hospital ships
and their use to convey troops and
munitions. These include state-
ments by eye witnesses charging vi-
olations of international usage. The
British hospital ships Britannia and
Aquitania are named in these docu-
ments as among those which had
carried troops.

Officials circles point out that
Germany has precedents in her ac-
tion citing the capture and sale by
the British of a German hospital
ship which was cruising in the hope
of picking up survivors after a
naval engagement in the North Sea,
and an announcement by Russia that
she would not respect Turkish or
Bulgarian hospital ships in the Black
Sea.

VON TARNOW DID NOT KNOW OF NOTE; WON'T DISCUSS IT.

(ASSOCIATED PRESS TELEGRAM)
New York, Feb. 1.—Count Adam
Tarnowski von Tarnow, Austria-
Hungary's new ambassador to the
United States, who arrived today on
the steamer Noordam, learned first
from newspaper men of the German
note outlining a new naval policy.
"The note is a surprise to me," he
said. "I know nothing about it un-
til you newspapermen showed the
newspapers containing it."
"Did you know such a note was
contemplated?"
"I did not."

The new ambassador hastily read
the note and then, asserting it was
too serious for discussion at this
time, protested against further ques-
tioning. He said he would go im-
mediately to Washington to take up his
duties.

McCUMBER URGES SENATE TO HELP SECURE PEACE.

able for it to aid the president in
securing world peace.

"We awakened this morning,"
said Senator McCumber, "to meet a
situation so critical as to warrant
our laying aside all ordinary business
of legislation and giving our earnest
consideration to the grave and vital
matters in which the national al-
ready is involved and matters in
which our future peace may be at

COTTON SUFFERS BIGGEST BREAK IN ITS HISTORY

(ASSOCIATED PRESS TELEGRAM)
New York, Feb. 1.—Cotton broke
wide open on the call in the future
market today under a tremendous
wave of selling. March contracts
dropped three hundred and seventy-
three points. This break amounted
to more than \$25 a bale and the
market was absolutely demoralized.
May contracts broke to \$12.50 with-
in ten minutes, 516 points under last
night's closing figures, making the
biggest break in such a short time
in the history of the market. Re-
ports of conditions in the stock mar-
ket increased the excitement but af-
ter the most violent liquidation had
somewhat subsided, may contracts
rallied to 14 cents on covering.

Before the end of the first half
hour May contracts had rallied to 17
cents or 1-1/2 from the lowest and
within 15 points of last night's closing
figures. The sensational break
brought in fresh buying as well as
covering by shorts but the shock of
the unprecedented rapidity of the de-
cline was still evident in the confu-
sion and excitement.

NEW ORLEANS COTTON.

(ASSOCIATED PRESS TELEGRAM)
New Orleans, Feb. 1.—The May
option on the opening of the cotton
market today fell \$21 a bale, drop-
ping 17 cents a pound compared to
\$17 1/2 yesterday's closing price. The
fall is the greatest overnight loss in
the history of the local cotton mar-
ket.

United States and Germany.

The latest communication from the German imperial government to the United States is a defiance of this country. Stripped of its exasperated, it is a thinly veiled diplomatic assurance of its high regard for President Wilson's sentiments expressed in his speech to the United States senate on January 22nd, the German note proceeds to justify the treatment of Belgium and after attempting to show the benign intentions of the Teutonic allies, berates England and lays the entire blame for a continuance of the war upon her. The imperial government then informs the United States that it "is now compelled to continue the fight for existence against force upon it with full equipment of all the weapons which are at its disposal" and asks the United States to view such a declaration of ruthless warfare from "heights of impartiality."

In memoranda attached to the note the zone permitted to United States vessels and the conditions under which they may enter it are prescribed.

It is a threat pure and simple and it seems that President Wilson has only one of three courses to pursue: (1) Hand Ambassador Von Bernstorff his passport. (2) Warn Germany that she will violate American rights at her peril. (3) Await developments of Germany's new U-boat campaign.

Doubtless there will be many American newspapers that will insist upon dismissing Von Bernstorff while others will express the hope that diplomatic relations will not be severed except in the case of absolute necessity.

President Wilson has been most patient but it will be remembered that his course through bitter criticism of the war has kept us so far out of the war that has set the world on fire.

When the channel liner Sussex was sunk the president, threatening a severance of the relations, wrote:

"If it is still the purpose of the imperial government to prosecute relentless and indiscriminate warfare against vessels of commerce by the use of submarines without regard to what the government of the United States must consider the sacred and indisputable rules of international law, and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course it can pursue."

"Unless the imperial German government should now immediately declare and effect an abandonment of its present methods of submarine warfare, against passenger and freight carrying vessels, the government of the United States can have no choice but to sever diplomatic relations with the German empire altogether. This action the government of the United States contemplates with the greatest reluctance, but feels constrained to take in behalf of humanity and rights of neutral nations."

In view of the president's note it seems that the last word from Germany justifies President Wilson in taking drastic action. And yet, may we not still hope? Shall the break with Germany come now or shall we wait to see if the new U-boat campaign is conducted in violation of international law and American rights? The situation is critical but will first be made to preserve peace between the United States and Germany and that diplomatic relations be severed only as a last resort in the hope that this fair land may be spared the horrors of war. Upon the other hand, if American rights are further violated there remains but one thing to do, namely, send Mr. Von Bernstorff home.

Real High Finance.

(New York Commercial.)

Another British government collateral loan is to be floated in the United States at a time when money is easy and cheap. New York City is the only great money market in which such conditions prevail. Conservative investors have swept the market bare of high class domestic bonds and still have hundreds of millions of dollars with which to buy securities that appeal to them. These British bonds are well secured apart from the credit or the United Kingdom and their sale here will not take a single dollar out of the country. The proceeds will be spent for merchandise exported to Europe, which means that the United States will pay for them in exports on which American producers and merchants will make large profits. The individual investor may pay cash, but in adjusting international balances, Great Britain will get merchandise.

Another British government loan is to be offered in British India. In this case also India will pay or has paid in merchandise the amount of whatever bonds may be sold there. Like the United States, India is exporting far more than she imports and this loan, if successful, will adjust the balance and put India in the position of a creditor drawing interest from her debtor. There is plenty of money in India. The wealthy natives take kindly to this financial plan it will help business in their country. The cost of sending gold and silver to Calcutta or Bombay from England or the United States is practically prohibitive and such remittances will be unnecessary if native capitalists can be induced to put in circulation the money they have.

These transactions are true high finance and the part the United States is playing should open the minds of Americans and give them a broad view of international trade and finance. If we see clearly and grasp the opportunities thrust upon us the United States will play a greater part in the days of reconstruction in Europe and the other continents than it is doing in time of war.

Presidential Suffrage For Women.

(Columbus Dispatch.)

The bill granting to women the right to vote at presidential elections has been recommended to the Ohio house of representatives for passage. It came out of the committee with a vote of 7 to 4 and should go through the house with a similar or even greater affirmative majority. If it does and the senate and governor approve, a beginning will have been made in a manifest act of justice. The rest will have to be left to the people when a constitutional amendment is submitted.

There is no reason why the legislature should fear to act, for it is entirely possible for the people, if they disapprove, to overturn the act with a referendum. But the sentiment in Ohio has greatly changed since the question was last submitted and defeated. By the testimony of its best interpreters, Ohio is now for suffrage, and the legislature can act with the full assurance that, if the matter were tested, it would be triumphantly supported. That is precisely the reason why the foes of woman suffrage do not want the legislature to act. They want to defer the act of justice as long as possible because for them it means a security they will not have when it comes.

Isn't There a Better Way?

(Columbus Citizen.)

Mexican women riot because El Paso health authorities compel them to bathe in vinegar and gasoline before crossing to this side, in absence of a military permit.

Isn't there a better way of conserving public health without forcing the use of this evil combination? How would we feel if American women were compelled to bathe in vinegar and gasoline before crossing the international line into Canada at Buffalo, or Detroit?

Gossip From State House

Columbus, Feb. 1.—Initiated bill

No. 1, to exclude private liability insurance companies from competition with the workman's compensation law, was on the calendar for 2 o'clock this afternoon. This measure is being backed by organized labor. The Reynolds bill to extend Presidential suffrage to women was assigned for 2:30 o'clock and the Blasler bill to place quail in the song bird class was a special order for 3 o'clock.

Chances were said by politicians to favor passage of all three of these measures. They all have been reported favorably by committees. Agriculturalists here attending farmers' week at Ohio State University have practically insured the passage of the quail bill, it is said. Many of them appeared on the streets and about the state capitol wearing badges labeled "Save Our Quail."

L. J. Taber, master of the State Stage, said 90 per cent of the rural population of Ohio favored the bill to place the quail in the song bird list.

If suffragists succeed in the House in getting the Reynolds Presidential suffrage bill through it is expected to have easy sailing when it reaches the Senate, where 22 votes are claimed for it. It is said that Governor Cox will not veto the measure. A suit is now pending in the Ohio Supreme court in a case from East Cleveland which may test the constitutionality of the measure. In this case, East Cleveland adopted a home rule charter, giving women the right to vote and the Supreme court has not yet passed upon the question. If the court upholds the right of women to vote for officers not provided for in the constitution, opponents of suffrage may propose a referendum on the suffrage bill, it is said, submitting it to the voters in November.

Although introduced as a Republican measure in the general assembly, the proposed investigation of the high cost of living passed by the House and now up to the State Senate, expected to receive support of Democrats as well as Republicans in the senate.

Ohio miners and other labor organizations were the first to demand such an investigation and they were getting busy in the legislature today when they learned that an attempt might be made to kill the proposed investigation when it reached the Senate.

Representative Nathan Clark of Lebanon, backing the measure, gave some comparative figures on the cost of living now and a year ago in presenting the subject to the House, as evidence that the increase in price was not due to the war but "to some artificial power at work."

"Potatoes were selling at \$1.50 a year ago and today they are retailing at \$2.50 a bushel," said Judge Clark. "Beans were ten cents a pound a year ago and today they are 15 cents a pound. Flour has advanced 50 per cent. Coal from \$3.50 to \$5.50 a ton; apples from \$1 and \$1.25 to \$2.50 and \$3.00 a bushel; onions from \$1.25 to \$2.50 a bushel; butter from 24 to 41 cents a pound and cabbage from 5 to 10 cents a pound. There has been a steady and unrelenting increase driving to total starvation." Representative Clark asserted, "If this is due to gathering up the food products of this country to feed the warring nations of Europe thereby driving the poor people of Ohio to starvation, it is about time we were memorializing congress to place an embargo on the exportation of food stuffs."

Mrs. Harriet Taylor Upton, president of the Ohio Woman's Suffrage association, was wondering today, she said, whether she was tricked by some clever legislators opposed to suffrage when the suffrage bill was up for final vote before the House elections committee. At the same time the Presidential suffrage bill was up for hearing the committee on codes was meeting in another room to consider the Hoy bill relating to co-guardianship of parents over children. Mrs. Upton was in evidence to appear before the codes committee. She went on guard at the elections committee meeting. Members of the codes committee held here, she said after the meeting, and while she was before that committee the suffrage bill before the elections committee will be reported out without recommendation because one of the members of the committee favoring the bill was not present. He appeared later, however, and the bill was reconsidered and reported out to the House with the recommendation that it be passed.

Warden Preston E. Thomas has recommended to the legislature that a bill be passed providing for the erection of a \$300,000 brick plant which will give employment to 500 penitentiary prisoners and do away with the population in the prison's idle house. He asserts that 200,000 brick could be manufactured daily, and recommended a site near Athens.

WHY SOCIETY WOMEN WASH THEIR OWN HAIR

They do, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a makeshift but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home-made castile soap mixture. You can use this at a cost of about five cents a shampoo by getting some castile soap from your druggist, and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Handrub, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also be heightened. Advertisement.

Spirit of the Press

No Germans Found.

A bacteriologist of Johns Hopkins University examined seventy-five public library books which had been in circulation for years and had 150 schoolbooks from homes in which diphtheria was known to have existed and could find no deadly germs of any kind in them. This was a very disappointing result. On the basis of popular germ mania, the libraries should have been alive with bacteria.—New York World.

Pence or War?

If the United States passes through this fatal year without being thrust into the war pit—which heaven grant—the nation's chances to keep out for good and all will be strengthened. The scales may be balanced more delicately than the wisest of us surmise.—Minneapolis Tribune.

White House Picketing.

Is it possible that the equal suffrage cause and the plans of the sincere workers for votes for women have fallen into the hands of actual enemies of the cause? Can it be that the efforts toward extending the privilege of suffrage to all the states are being directed by unthinking novices? These questions are suggested by the act of certain of those conspicuously "picketing" the White House, the residence of the President and his family.—Oakland Tribune.

How Prosperity Caters to Travel.

The country's prosperity is usually reflected in two distinct ways: first, in the augmentation of passenger traffic on the main lines of transportation, and second, in increased business at the leading hotels. The abnormal prosperity of travel is showing in the rush of to-day among all classes, and in a general turning to the hotels, shall we say, to settle the high-cost-of-living problem—or to make it more complex.—Leslie's Weekly.

Conjugal Bliss.

An Indianapolis man was found clinging to the top of a telegraph pole. He told the police that he had been married three days and given of his wife \$20, his week's salary, out of which she had spent \$5 for perfume, \$6 for silk stockings and then left him, saying she could not live on his wages.—Leslie's Weekly.

FIGURES INDICATE GROWING ATTENDANCE IN PUBLIC SCHOOLS

With the total enrollment of the city schools closely approaching that of last year attendance and tardiness among the pupils compares favorably with the record made in the past. The percentage of attendance in the high school and grade schools is exactly the same as last year. There were fewer cases of tardiness in both branches according to the monthly report of Supt. Hawkins, which follows:

Notes and Comments.

"A glance at the above statistics will show that there are twenty-two more pupils at the close of January 1917 than at the same date of any year. There has been a gradual increase each month and if this keeps up the enrollment at the end of the year will exceed that of last year considerably."

Considering that there has been a great deal of sickness among children and in the homes of children, the attendance and punctuality are remarkably good. Teachers made 183 visits to the homes of children during the month. Visits were made to the schools by 442 parents and others. 183 of these being parents. The superintendent made 74 visits into the various school rooms of the city observing the work of teachers and pupils.

Dr. Frank B. Pearson, state superintendent of public instruction, addressed a meeting of the city teachers in the high school auditorium on January 23. Dr. Pearson is a great favorite among Newark teachers and principals. His subject was "Behavior."

During the holiday season under the direction of Miss Edith McCoy, supervisor of drawing, 1000 school calendars were made and sold by the pupils. Miss McCoy appreciates the interest taken by pupils and teachers. She has received many compliments upon these calendars. After all expenses were paid, there was a balance of \$35 which will be used by the drawing department.

On Wednesday afternoon, Feb. 21, exercises of a patriotic character will be given in every school building in the city. Patrons of the schools are invited to attend.

On February 12 Supt. Wm. McK. Vance, of Delaware, Ohio, will address a general meeting of the city teachers.

The Advocate's MELTING POT

Every great and commanding movement in the annals of the world is the triumph of enthusiasm.—Emerson.

I speak of ignatz rackett;
But when he plays at tennis, he is sure to raise a rackett.

He may be deaf, but all the same,
His wife won't let him play the game.

Etiquette a Generation Ago.

The following extracts were taken from a manual of etiquette published in 1885, but as Bob Ryder says human nature really changes very little, we gladly print them in the hope that some Advocate reader may find them helpful.

"Never exhibit anger, impatience or excitement when an accident happens."

"This simple rule, at the time it was written, was probably easy to observe; but it is safe to say that non-automobile owners would be the only ones at present who could keep it to the letter."

"Never neglect to call upon your friends."

"We can still call upon them all right, but—will they come across?"

"Never send a present, hoping for one in return."

Considering the frailty of human nature and the eternally springing habit that hope has, the Melting Pot doesn't see how the author expected to accomplish anything by publishing such a rule as this.

"When crossing the pavement, the lady should raise her dress with the right hand, a little above the ankle. To raise the dress with both hands, is vulgar, and can be excused only when the mud is very deep."

We feel sure that our modern girls, even in moments of the most reckless abandon and the deepest mud, would never use more than one hand, no matter how much they are inclined, at times, to overdo their demonstration of the fact that they are not mermaids.

"Never fail, if a gentleman, of being civil and polite to ladies."

Note the subtle intimation that even as long ago as 1885 women were beginning to obtain rights and one of these was doubtless that of being as uncivil and impolite as they pleased to members of their own sex, hence they probably insisted upon that phrase, "A gentleman."

Did You Know

That in the mythical history and legendary poetry of almost every nation the dragon appears as the emblem of the destructive principle? Like the serpent, the dragon is always the minister of evil. In our Christian art, the dragon is the emblem of sin, the usual form that is given to it being that of a winged crocodile. Sometimes its prostrate attitude signifies the triumph of Christianity over paganism, as in the picture of St. George.

Famine In the Land?

(By J. D. Montgomery.)

One would think that since prices are so high there must be a famine of bread in this fair land. One might be bountiful and that there was a desperate shortage of raw material facing us.

Speaking of nature some one has made the following statement: "Only a small fraction of the fertile soil of the earth is tilled at the present time." Another writer has declared: "In the forests of Africa alone enough nuts go to waste to feed the entire human family and one billion more." The Cleveland Leader in its issue of January 23 makes claims like this: "Our earth is not one-tenth populated. All the human beings on the planet could stand on Staten Island in New York harbor. All the human beings on earth, and twice as many, could be well provided for within the borders of Texas with proper cultivation and manufactures." No there is no lack of food. Nature has not forgotten her children. It was promised back in the times of Noah or thereabouts, that seed time and harvest, summer and winter, should not cease from the earth forever. There is plenty of food.

In December 1915 a so-called city of Chicago to that extent that the common people could not afford an egg even for their sick set in that city alone there is said to have been more than 40 million dozens in cold storage. Butter in the same city sold at 47c early in November last yet in the city was enough butter to last its people till 1919 if it had been put on the market at a fair price. There seems to be plenty of food on hand but it seems to be confined to a chosen few hands.

Another great item in this matter:

In the "small," right over the hips?

That's the home of backache. If it's caused by weak kidneys, use Doan's Kidney Pills.

Newark people testify to their worth. Read a case of it.

Mrs. G. W. Hall, 145 E. Main St., Newark, says: "Backache troubled me so much that I couldn't do my housework. Doan's Kidney Pills strengthened my back and put my kidneys in good shape."

What a Question!
Aunt Calline says: "I was in at the King's shoe store yesterday in come a little bit if a girl an' she walks up to Mr. Krieg an' says, 'Mo'her wants some shoe strings.' So Mr. Krieg put several shoe strings out onto the counter and she says, 'I want them.' At this the little girl got kinda red in the face an' says, 'I think she wants them to keep,' she says."

Was she composing a poem, was
there some peculiar reason why she
should keep her feet in the sand, or
was she merely contemplating a

Why?
The lady sat still with her chin in her

Is extravagance and waste. It is es-
timated that in Chicago alone
enough food goes to the garbage can
daily to feed a fair sized city free.

One-half pound daily per capita is
the estimate of conservative men for
that city. Poured to tons this would
figure about 625 tons of food lost
daily; 4375 tons weekly; and 17,500
tons of perfectly good food, and pre-
pared food at that, to the garbage
disposal plants every month. And
these figures apply to the nation. It
is easily seen that we waste about
enough to feed the entire allies
while they try to butcher their
brethren, the enemy.

No More Stomach Trouble After Taking Fruitola

Feels Ten Years Younger Now and Enjoys the Best of Health.

Mrs. H. N. Holbrook of Arko, Minn., who is seventy years old, has written to the Pinus Laboratories that, thanks to Fruitola and Traxo, she is now very well and feels ten years younger. In her letter, Mrs. Holbrook says: "Fruitola relieved me of quite a large number of gall stones and I immediately began to feel better and have had no more trouble since."

MRS. H. N. HOLBROOK

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus Laboratories at Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Ill.

Society

The following parties bowled at the Pastime Alleys on Wednesday evening: On the first alley were Mr. and Mrs. Gilbert Keck, Mrs. Bertha Schimpf, Mrs. Charles Benz, and Mrs. William Dietrich, Misses Gertrude Brucken, Margaret Littleton, Viola Keck, Louise Brucken and Katherine Schopen. Mrs. Schimpf had the high score. On the second alley were Misses Helen Ginter, Katherine Steopler, Mary Niemeth, Gertrude Roland, Margaret Steopler, Messrs. Edward Smalles, Earl Davis, and Elmo Mackey. Miss Margaret Steopler and Mr. Davis carried off the high scores.

The meeting of the Research club held on Wednesday afternoon was a most interesting one. It was held at the home of Mrs. Henry Roedel of Ashland avenue and was a guest meeting each member taking one other woman. The meeting was addressed by Mrs. E. T. Johnson of Newark, who is vice president of the southern district of the Federated clubs. Her talk was a very profitable one.—Zanesville Signal.

Cards have been issued for the anniversary ball which will be given by the members of the Phi Sigma Chi fraternity on Friday evening, February 9, from 8 until 12 o'clock. The dancing party will be an elaborate one, with many novelties introduced.

Dropsy Treated Free

By Dr. Miles, the Great Specialist, Who Sends a \$3.75 Trial Treatment Free. Many Report Cured After Others Failed.

At first no disease is apparently more harmless than dropsy, a little swelling of the eyelids, hands, feet, ankles, or abdomen. Finally there is great shortness of breath, faint spells, sometimes nausea and vomiting, even bursting of the limbs, and a lingering and wretched death if the dropsy is not removed.

Dr. Miles has been known as a leading specialist in these diseases for 30 years. His liberal offer of a \$3.75 treatment free to all sufferers is certainly worthy of serious consideration. You may never have such an opportunity again.

The Grand Dropsy Treatment consists of four dropsy remedies in one, also Tonic Tablets and Pura-Laxa for removing the water. This treatment is specially prescribed for each patient and is three times as successful as that of most physicians. It usually relieves the first day, and removes swelling in six days in most cases. Delay is dangerous.

How to Be Rid of Disgusting Dandruff

The only way to be permanently rid of disgusting dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever. To destroy dandruff, you must get rid of dandruff for good, part the hair and apply a little of the genuine Parisian Sage dandruff cream on the scalp and rub it in with the finger tips for a few minutes until absorbed by the scalp. You will surely be amazed at the result of even one application. For your hair and scalp will look and feel 100 per cent better.

Only a few days' massage with Parisian Sage are needed to destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow thicker and more life and vitality, and you need never be troubled by dandruff again. Faded, dull or lifeless hair is quickly restored to healthy condition. Parisian Sage is absolutely harmless, and will not stain the hair or make it gray.

Parisian Sage is obtainable from W. A. Urban and druggists everywhere. It is not expensive.

For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. Any person who has suffered from this disease should consider the method employed in the British to combat this disease. There are no other means of curing catarrh and head noises as effective as the British method. In this method, the patient is treated with a special preparation which is applied to the ear. It is not expensive.

Sufferers who could scarcely hear have had the same preparation applied to the ear and in a few days they were able to hear as well as before. This preparation is applied to the ear and in a few days they were able to hear as well as before. This preparation is applied to the ear and in a few days they were able to hear as well as before.

RECIPE TO DARKEN GRAY HAIR

This Home Made Mixture Darkens Gray Hair and Makes It Soft and Glossy.

To a half pint of water add: Bay Rum 1 oz. Ratan Compound 1 oz. small box Glycerine 1 oz.

These are all simple ingredients that you can buy from any druggist at a very little cost, and mix them yourself. Apply to the hair once a day for two weeks, then once every other week until all the mixture is used.

A half pint should be enough to darken the gray hair, and make it soft and glossy. It is not sticky or greasy, and does not rub off. It should make a gray-haired person look 20 years younger—Advertisement.

DISTRIBUTION AND PRODUCTION OF MILK DISCUSSED

Licking county is one of the three biggest dairy products counties in Ohio and the Newark Chamber of Commerce, through its Agricultural Bureau, is co-operating with the Licking Cow Improvement Association to develop this industry in which hundreds of thousands of dollars are invested in Licking county.

In accordance with a campaign of education to interest agriculturists, dairymen and business men, a meeting will be held in Chamber of Commerce headquarters, Hunter-Baker building, Friday night at 7:30, which will be addressed by D. D. Aiken, Flint, Mich., president of the National Holstein-Friesian Association. Mr. Aiken, who is one of the most noted authorities on high bred dairy cattle, will talk on several important lines of dairy development. He will show how this industry can be built up by the most modern methods of cattle breeding, the varied uses of milk as a food product and the best systems of distribution. A special invitation to business men as well as farmers and dairymen is extended to hear this address.

REPUBLICANS MAY ADOPT PRINCIPLES OF PROGRESSIVES

New York, Feb. 1.—Prominent Progressives who share the sentiments of George W. Perkins and Everett Colby believed today that a meeting of the Republican National committee would be called in the near future to consider the ratification of certain principles adopted by the Progressive party in 1912. Chairman Wilcox of the Republican National committee, announced that he would have something to say in a day or two regarding a letter addressed to him last night by Messrs. Perkins and Colby, in which he was warned that unless such a meeting was called the Progressive party would re-organize as a separate political organization.

The letter proposed a committee or council "representative of the various elements opposed in principle to Wilson Democracy." It asserted that the Republican party cannot hope to regain control if the reactionary element is in power, or as long as there is a split between Republicans and Progressives who supported Mr. Hughes.

ASHBROOK CAR WAS DEMOLISHED; INJURIES SLIGHT

Congressman Ashbrook in writing to a friend concerning the recent automobile accident news of which has appeared in the Washington dispatches says:

"We had a very close shave. How we escaped serious injury I don't know. Mrs. Ashbrook was thrown from the machine upon the pavement and was rendered unconscious for a short time when the automobile skidded and ran against a pole. I have a bad bruise on my left knee cap which has housed me up. I am all right except for this injury and shall be out in a day or two. Mrs. Ashbrook miraculously escaped injury except for a few bruises and a general shake up. We were in a Chalmers car returning from Monticello to Washington and the car was completely demolished in the crash."

ROTHSTEIN ADDS ANOTHER GROCERY TO HIS STRING

M. Rothstein has added another grocery to the string of groceries owned and operated by him in different sections of the city. On Wednesday Mr. Rothstein took over the grocery formerly operated by U. G. Brillhart, who sold to buyers from yesterday. Mr. Rothstein purchased the grocery which is located in the Union Block. This makes five groceries now owned by him. Mr. Rothstein is one of the progressive merchants of the city, and he has procured by his satisfactory business methods a large number of patrons throughout the city.

HIGH SCHOOLS' MEETING FRIDAY MEANS GOOD GAME

Newark's basketball game Friday night with North High of Columbus means that local basketball fans will see one of the best games offered this season. The teams are rivals of long standing. Both schools have heretofore turned out good basketball teams and Newark this year has one of its best, despite the fact that the men got a late start. Play will start at 7:30 o'clock and a class game will open the evening's sport as a preliminary. The games are played in the high school gymnasium in the old Methodist church building at Church and Fourth streets.

The Greatest Medical Authorities in the World have made public statements in which they endorse the value of such ingredients as are contained in Father John's Medicine.

These great physicians say in substance, that these ingredients "are beneficial notably in wasting diseases and those maladies which are connected with or have their origin in colds and in debilitating and wasting diseases."

To detail here the statements of these various authorities would require too much space, but if you desire to see these statements in more complete form, write to Father John's Medicine, Lowell, Mass., and we will be glad to give the names of the authorities quoted, with brief excerpts from their public statements.

Father John's Medicine is a pure and wholesome body builder, contains no alcohol or dangerous drugs. Best for throat and lungs.

Granville

[Special to The Advocate]

Granville, Feb. 1.—The residents of Granville and surrounding communities are invited to attend the lecture given tonight in Rectal Hall by Prof. Roebach of the University of Pennsylvania, with pictures of Venezuela, South America. He is a traveler, an observer and a fine speaker. Come! At 8 o'clock. No tickets.

Mrs. E. J. Dorsey, who, with Mr. Dorsey left Granville two weeks ago for California, via New Orleans, writes on January 28 to this effect: "We are in the bright and sunny land of old California after a safe and comfortable journey. We reached here last Monday evening and found our family all well. It is fine to see flowers blooming and hear birds singing when we remember the snow and slush at home."

Mrs. C. B. Slack is in Washington, D. C., visiting at the home of her son-in-law and daughter, Mr. and Mrs. O. H. Burriss.

Mrs. J. S. Jones returned to Bryn Du today from Columbus, where she was one of the assistant hostesses at the coming out party of Miss Maribel Schumaker, Wednesday afternoon. Mr. and Mrs. Jones also were dinner guests of Mr. and Mrs. Frederick William Schumaker and were among those present at the ball given for their debutante daughter last night at the Virginia hotel.

John Hundley and Harold Jones, with Frank Spencer of Newark, were among those present at the coming out ball of Miss Maribel Schumaker, of Columbus, given at the Virginia hotel Wednesday night.

Mayor C. D. Coons has received a letter from W. C. Sprague, '31, of Chicago, who sponsored the "Denison Day" idea among the alumni, congratulating the town, the mayor and the president of the university for their initiative in starting the movement right at home with a big get-together meeting in Cleveland hall Saturday night at 8 o'clock.

Don't forget The King's Daughters' supper on Friday evening, February 2 from 5 o'clock until 6:30, given by the second division. Also remember that by attending the sale of ready-to-eat food on Saturday afternoon at 2:30, you can escape your usual Saturday's baking. All these attractions in the K-D rooms.

Prof. Harold Fish has been quite ill for the past few days.

Dr. J. W. Kohrer is again at his office after a sharp attack of threatened pneumonia. He says that "it's hard to keep a good man down."

A. C. Farley, who has been quite ill in the Newark Hospital for some time past, is greatly improved. He and Mrs. Farley expect to spend next week in Columbus among their old friends.

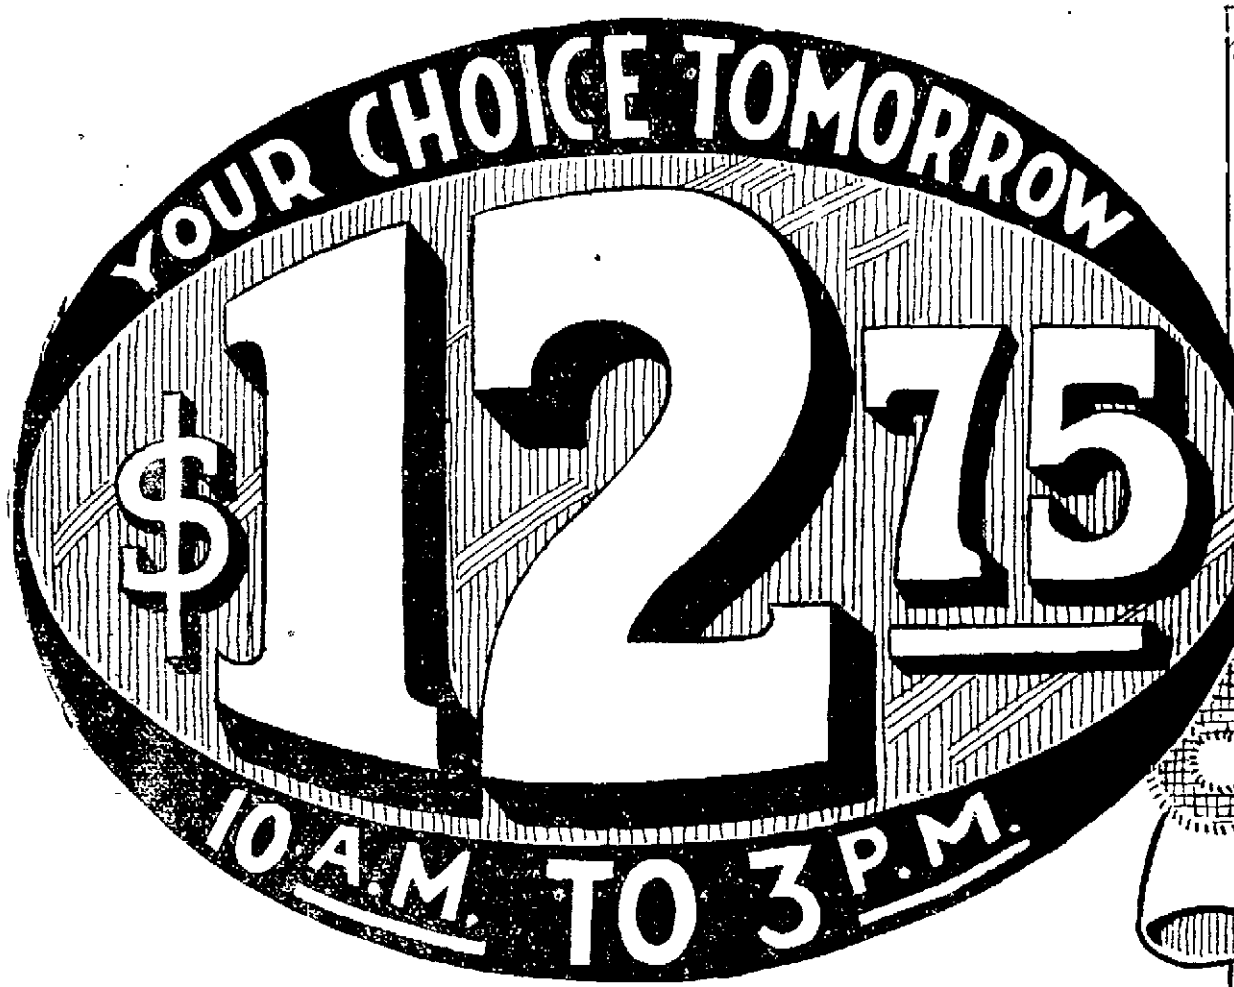

In the "tie that binds" Newark and Granville in amicable relations, another cord was added on Tuesday evening, when the Newark Chamber of Commerce honored Denison's president with a place on its program, and the president honored Newark in a remark that he made.

One of the largest and most interesting congregational meetings ever held in the Presbyterian church was that of Wednesday evening. The occasion was the annual dinner which was served at 6:30. Fully 200 people were served. The dinner was planned by the ladies and was a grand success. The reports from the different organizations of the church showed a most prosperous condition. The church secretary, as usual, closed his books December 31,

FIVE STORES

With But One Aim: "To Sell For
Less" We wish to announce to our
friends (the general public) the
opening of our new store corner
Fourth and Church streets, formerly
"Drillhalls". This will increase our
outlet and enable us to purchase our
merchandise in much larger quantities
and we will sell at still lower prices than
ever. Do you realize our enormous
buying power and how much less we
pay than other stores? Is it possi-
ble for any store to sell the high
grade goods we do at our extreme-
ly low prices? We are now able to
sell you groceries at less than the
present wholesale prices. Let our
advantage be to your advantage.

Sparks. They will spend the month
of February there and before return-
ing will visit their daughter in
Evanston, Ill.

U. S. RELATIONS

(Continued from Page 1)
bassy was generally interpreted as an
indication that the Berlin govern-
ment was very sure of the success of
its plans.

The new crisis, however, brings
new dangers to the very shores of
the United States, where a score or
more of German and Austrian
ships have been laid up since the be-
ginning of the war, and where sever-
al German commerce raiders are in-
terned.

Reports of ships being armed se-
cretly for a dash to sea, of plots to
sink them at their wharves or to
block American harbors by destroy-
ing them in the channels have been
under investigation for many
months.

This was diplomatic day at the
state department, a set occasion for
receiving representatives of foreign
governments. Secretary Lansing,
however, cancelled it and those who
had routine business were taken into
conference by lesser officials. The
British ambassador, Sir Cecil Spring-
Rice and the Japanese ambassador,
Mr. Satō, were among the early call-
ers.

Diplomats who asked for Secretary
Lansing were told he was very busily
engaged preparing something for
President Wilson.

CHANCELLOR SAYS GERMANY ACCEPTS ALLIES' CHALLENGE

Berlin, January 31, via London.
February 1.—Chancellor Von Beth-
mann-Hollweg and other ministers
attended an important meeting of
the ways and means committee of
the reichstag today at which the
entire war situation was gone over
and new steps planned by the cen-
tral powers were considered. The
chancellor opened the sitting with
a speech of what the keynote words
were: "We have been challenged to
fight to the end. We accept the
challenge, we take everything and
we shall be victorious."

The chancellor was followed by the
secretary of state for the admiralty
who spoke of the situation from the
technical, military and naval view-
point. Detailed statistical data in re-
gard to the economic position of the
world was supplied by the secretary
of the interior and foreign secretary
Zimmerman replied to several special
questions.

After the ministers had spoken the
chancellor went into a short ses-
sion at which special laws were made by
representatives of the Central Na-
tional, Liberal and Progressive par-
ties.

ENGLAND WAITS FOR U. S. ACTION ON GERMAN NOTE

London, Feb. 1.—The German de-
claration of unrestricted war at sea
has created a profound sensation in
England, where it was unexpected.
All interest centers on the policy
which neutral maritime nations will
adopt.
The decision of the United States
is awaited with the most intense in-
terest, as it is recognized that it will
have a strong influence on other neu-
trals and be the most important fac-
tor in the solution of one of the
most serious crises of the war. Of-
ficials decline to discuss the question
formally at present.

SUFFRAGE BILL CERTAIN TO PASS HOUSE THURSDAY

(Associated Press Telegram)
Columbus, Feb. 1.—It was said to
be a foregone conclusion that the
lower house of the general assembly
this afternoon would pass an
emergency measure the Lloyd Bill
to build a \$200,000 coliseum at the
State Fair grounds in Columbus to
accommodate the National Dairy
show to be held here in October; the
initiated labor bill to amend the
workman's compensation act, so as
to exclude private liability insurance
companies and the women's Presi-
dential suffrage measure.

The house initiative and referen-
dum committee this morning recom-
mended for passage the Hoy resolu-
tion one to submit to the voters next
November a proposal amendment to
abolish civil service in Ohio and the
other to make it apply to all ap-
pointive public officials except police
and firemen and old soldiers.

Representatives of street and inter-
urban electric railways companies
appeared today before the house
labor committee and protested against
the bill by Representative Ott of
Hamilton county proposing an eight-
hour day for employees of the electric
railways in Ohio.

MARINE CORPS SEEKS RELATIVES OF DEAD SOLDIERS

Washington, D. C., Feb. 1.—The
endevour of the European nations to
locate the relatives of men who have
fallen in battle while serving the va-
rious foreign legions bears an inter-
esting comparison to similar efforts
now being undertaken in this coun-
try to trace the relatives or heirs of
men in the American service who
have died, some of whom have left
valuable property.

The United States marine corps is-
sued a bulletin today, containing the
name of Sergeant Albert Jolly of Mel-
bourne, Australia, Corporal Thomas
Brophy of Dublin, Ireland, and Pri-
vate Owen Woods (former address
unknown), in a further effort to lo-
cate their heirs or next of kin. These
men, who have been dead over ten
years, left effects of considerable
value, and numerous inquiries dur-
ing that period have failed to locate
their rightful heirs.

The Courts

Ask New Road.
A petition has been filed with the
county commissioners by W. B.
Fouts and 36 others, asking for a
public road commencing at the in-
tersection of Twenty-first street and
Woodlawn avenue in the Cherry Vale
Park addition, east on Woodlawn
avenue to Nineteenth street, south
to Davis avenue in West Park street.
A view of the proposed road will be
made on February 23, and the hear-
ing on the engineer's report at the
commissioners' office Wednesday,
March 7.

Sentenced to Lancaster.
Arthur Hartuppe, 17, one of the
young lads involved in the stealing
of liquor from the Log Cabin saloon,
was before the probate court yester-
day afternoon and after hearing the
evidence and the confession of one
of the others involved, was sent-
enced to the reform farm at Lan-
caster. Young Hartuppe was under
a suspended sentence to the farm
and this was enforced.

Sent to Hospital.
Paul R. Fant, aged 26 years, was
taken from his home in Pearl street,
Granville, this morning by the coun-
ty commissioners and sent to the
Franklin county tubercular hospital
for incurables. Fant, an electrical
engineer, was formerly employed at
the Dodge Bros. automobile plant at
Detroit. He was also a former in-
mate of the state tubercular hospital
at Mt. Vernon, O.

SUNDAY SCHOOL FACTS SOUGHT BY STATE SURVEY

An annual survey of the thousands of Sunday schools in Ohio is being taken. The purpose of this survey is to discover and put on record the condition of each Sunday school in the Buckeye State, as to enrollment, organization, departments, curriculum, workers, work, equipment and results. The survey blank calls for an answer to the things Sunday schools are ordinarily expected to be.

Ohio is reputed to be one of the greatest Sunday school states and the gathering of the information through this survey will reveal our real strength. The blank will be sent to either the superintendent or secretary of each school and it should be filled out promptly and carefully and returned to the proper officer. These statistics will be used at the next great International Sunday School convention in New York and will show our strength and efficiency as compared with other states. The purpose of the taking of this survey is a worthy one, and every Sunday school should take pride in furnishing the statistics that Ohio's real strength may be revealed. A summarized report of the entire census of the schools of our county will be prepared and furnished to each school.

LOCAL MEN TO ATTEND CHICAGO CEMENT SHOW

Dan Coffman, C. H. Wells, D. L. Hawkins, and other local people interested in permanent construction with concrete are making plans to visit the tenth Chicago Cement Show at the Coliseum, Feb. 7-15.

Concrete is so widely used and its interests so large a number of people that the Chicago Cement Show is regarded, not only as the barometer of the building business, but of business in general for the ensuing year. This year the barometer is at a high point, as is evidenced by the large number of exhibitors who have applied for space.

FIREMAN FALLS FROM BIG TRUCK; ESCAPES INJURY

A great race in a closet caught fire at the home of R. S. Payne, 154 Ave. street about 9:45 o'clock last night, and the north Newark department and the ladder truck from central station were called. There was no need for their services.

As the ladder truck was passing the Arcade entrance on North Fourth street, Fireman Oliver Priest in reaching for his coat lost his balance and fell off. He was not badly hurt.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so you will be glad to know that according to the latest eye tests, you can get your eyesight back in one week's time in many instances. If your eyes are bothering you, even a little, take steps to see them right now. It is too late. Many people, at night, have found out that they had eyesight that they had lost. It was like a miracle to me. A 100% improvement. The attention of your eyes with or without glasses, is of great importance. I can read over things with my eyes without glasses. It is believed that thousands who wear glasses can now discard them in a reasonable time and find that they will be able to strengthen their eyes so as to be spared the trouble.

BABY ROLLS FROM BED; LEFT ARM BROKEN AT WRIST

Ruth Ellen Fell, fell from her bed at her home in Fairbanks avenue yesterday, breaking her arm.

The child is the 22-months-old daughter of Mr. and Mrs. W. A. Fell of Fairbanks avenue. In some unknown way the baby rolled from the bed and in falling broke the two bones in the left arm just above the wrist. Dr. W. E. Nye was called and reduced the fracture and the baby is resting more comfortably today.

MANNES SCHOOL IS UNIQUE IN MUSICAL CIRCLES OF NEW YORK.

(By Mrs. Joseph Sprague.)

New York, Jan. 24.—New York today in its mad rush reproduces the life of London and Paris. The casual observer draws one difference. Paris the pedestrian is arrested for delaying street traffic in New York the pedestrian still holds the right of way. Musically, this country has a great future the signs of which are evident to any close student of the trend of the times. New York has one music mad. A population of 5,000,000 demands hourly more concerts, more music halls. Day after day, night after night, standing room is at a premium and the bored ticket seller repeats automatically "all sold out."

Invariably at a big concert a crier

Rattenberg's NEWARK-OHIO.

NO. 13 WEST MAIN ST.

standing in the lobby announcing "nothing left but standing room" Music is the most commercialized commodity in the metropolis today, but in this age of commercialism two musicians are discovered who refuse to advertise or scramble for honors. They live for their art alone and freely give their services to the community in which they live. They have established in New York City the most unique school to be found in this country; a school unusually beautiful in all its appointments and remarkably successful; a school of lofty ideals which fosters no spirit of competition where study may be pursued as a serious and restful occupation.

It was my privilege recently to attend in the drawing room of the David Mannes School one of the most pleasing private musicales that I have heard in New York. This in a life of daily attendance at concert speaks much. The recital was not advertised, neither was an admission charged, but quietly at twilight the students and their friends assembled to enjoy what was offered. The recital hall is unlike any other in New York, the walls are covered with soft rose velvet, the hangings and rugs harmonize, fine old paintings adorn the walls, the daylight filters through panes of leaded glass and as it fades ingenious modern lighting softly floods the room.

I asked if I might have the subject of the talk the names of the singers and their program was politely refused because advertising is against the policy of the school. "Our work must speak for itself. Otherwise it cannot stand." What greater advertisement could a school have than just that. A school financially prosperous whose motto is "study for art's sake."

David and Clara Mannes are the presiding spirits of this school, having lived the greater part of their lives in New York. They still have the vision and ability to carry on their work from an aesthetic standpoint. They will be heard in recital at the Auditorium theatre on Feb. 6, the last of the Newark Women's Music Club series.

VICTOR RECORDS FOR FEBRUARY.

Today, in the millions of homes to which the Victrola brings the art of the greatest singers and musicians, those moments "when music seems divine" are frequent. The constant effort, the increasing effort of the Victor is to choose the artist and the song for their fitness to each other—and no month goes by when the Victor fails to bring together singers and songs, music and musicians, so perfectly long "intended for each other."

The Victor Records for February offer much music of time-tried and time-proven beauty which has never been given to the world with such unexampled sympathy and skill as the great Victor artists have endowed it with.
